Application for the Position of Data Science Intern

Dear Ms. Charles

I am excited to apply for the Data Science Intern position at MSCI. Your focus on developing innovative solutions to analyze climate risks deeply resonates with my academic background and passion for sustainable decision-making. I am particularly inspired by your efforts to integrate geospatial datasets into actionable insights that drive positive change in the investment community.

Currently pursuing a B.Sc in Data Science, I have honed my skills in geospatial data analysis, climate modeling, and statistical research. My technical expertise includes proficiency in Python, Pandas, SQL, and GIS tools like QGIS and Google Earth Engine. Additionally, I have practical experience in data visualization using Power BI and Tableau, enabling me to present complex datasets in an intuitive manner. These skills align with your requirements to enhance and improve GeoSpatial products and datasets.

I am drawn to MSCI's mission of powering better investment decisions and your commitment to addressing global climate challenges. The opportunity to contribute to the GeoSpatial product, collaborating with multidisciplinary teams, and directly impacting climate risk models excites me. Your emphasis on innovation and fostering a diverse, inclusive workplace aligns with my values and aspirations for professional growth.

I am eager to bring my skills, analytical mindset, and enthusiasm to your team to help MSCI continue its impactful work. I would welcome the opportunity to discuss how I can contribute to your goals in greater detail. Please feel free to contact me at your convenience to arrange an interview.

Sincerely,
Nils Walker
